Continuation of 5 Other: Newly submitted Claim 111 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Applicant's new independent claim 111 does not have requirements of the original claim. The previous claim 56 required a bottle with an outer thread and a tamper-evident ring, tamper evident means and a first opening means. The new claim 111 also requires a shaping die forming a radial cavity with a profile similar to a profile of said radially expanded part and an expandable part with a sloping wall which was not previously required. Accordingly, Claims 111-155 are withdrawn from consideration as being directed to a non-elected invention and there would be no claims to examine in the application. See 37 CFR 1.142(b) and MPEP 821.03. .
